## COMPETENCY DEVELOPMENT PLAN

**1** Identify areas where development of competency is required. This may include (but is not limited to) Canadian Crop Production, Canadian Animal Production, Canadian Environmental Systems, Communication Strategies, Agri-business Practices, Water Management, etc.

**2** Which university/college level courses do you plan to take increase competency in these areas?

**3** What seminars or industry training do you plan on attending to increase competency in these areas?

**4** Are you working to connect with people in agriculture for the purpose of informal mentorship? How?

**5** What other steps will you take to build competency in areas identified above?

**6** What are your goals for employment?

**7** When do you hope to complete Competency Development Program?
