

Reinstatement Policy

The following reinstatement policy and procedure guidelines applies to individuals who were previously registered in Manitoba, or who were previously registered in another province and who wish to resume registered practice of Agrology and be listed on the Register of those entitled to practice agrology in Manitoba.

[Reinstatement is an administrative procedure that may involve providing additional information about the intended area and scope of practice, completion of other requirements, and payment of related fees]

The purpose of the policy and guidelines is to protect the public. The decision process includes an evaluation of information relevant to re-engaging in registered practice after an extended absence. Decisions are made either by the Registrar or Admission and Registration Committee.

The policy and procedure guidelines do not limit the right of Agrologists Manitoba to request and evaluate any information it deems necessary and to make a fair and objective decision in the public interest.
